

STATISTICAL DATA ANALYSIS TRAINING PROGRAMME

The Technology Centre, a strategic unit of the Harare Institute of Technology, is offering an intensive short-term course on Statistical Data Analysis for those interested in practical continuous professional development. Real life data will be used and modeled covering demographics, healthcare data, humanitarian related data, financial and business data. You are awarded a proficiency related certificate at the end of each training based on performance merit. To register online CLICK: <https://goo.gl/forms/32CZ4TaS0ap0zMBF3>. Visit <https://www.hit.ac.zw/short-courses.html> to download our 2018/19 full bouquet of short courses on offer.
